

## Departmental Seminar

# Psychology and Mental Health

2:30 p.m. – 3:30 p.m. | October 9, 2018 (Tuesday)

Rm 813, 8/F, The Jockey Club Tower | Centennial Campus | The University of Hong Kong

## Dr. Julie Evans

Faculty Tutor

Faculty of Brain Sciences

University College London

### Abstract

This talk will outline some highlights of the contributions that psychological research has contributed to the understanding of casual factors and treatment of mental illness. The talk will discuss the importance of non-biological factors, the family and childhood and adolescence and the development of some therapies, highlighting some current work being carried out at UCL within the Faculty of Brain Sciences.

~All are Welcome~
